

October 2, 2013

Dear UOMA Member

On behalf of all the Used Oil Management Associations (UOMA's) which includes BCUOMA, AUOMA, SARRC, MARRC, and SOGHU, please be advised of very important information attached and as below.

Further to our previous communication from the UOMAs of April 5, 2013 to you or another representative of your company, on establishing Environmental Handling Charges (EHCs) on lubricating oil and related fluids including electrical insulating oil for transformers, automotive glycol fluid (anti-freeze/coolant) and oil filters for original equipment manufactured (OEM) by your company, we now provide additional formal notice of implementation of further changes.

Application of EHC on OEM sales commenced July 1st, 2013 for SOGHU, MARRC, AUOMA and BCUOMA and EHCs are due October 31, 2013.

The implementation of application of EHC on OEM sales for SARRC in Saskatchewan has been rescheduled to start April 1, 2014 and EHCs become due July 31, 2014.

OEM Members / Registrants are requested to remit online using the revised EHC input form available under "Member's Login" on each respective provincial website accessible through www.usedoilrecycling.com.

A revised OEM Categories Summary to be applied retroactively to July 1, 2013 is available adjacent to this notice on this website. Please note that the Oil and Coolant Categories for Passenger Vehicles and Light Trucks have being revised to reflect more recent actual experiences.

If you have any questions or concerns regarding your respective province, please go to the "Contact Us" page of your respective Association at www.usedoilrecycling.com. Thank you.
